Seventy five years ago Darrell Kellam, pilot of an English made two place bi-plane, the Avro Avian, built this little airport for people in the community to enjoy aviation. It went on to become the first public-use airport on the Eastern Shore of Virginia and has changed very little since 1933. Please join use for a weekend of aviation fun celebrating all old airports and our freedom to fly.
This is a fun fly-in all are encouraged to campout and have a relaxing weekend.
This is a **FREE** recreational event, however, donations will be accepted to offset food cost.
